All 48 'as is' processed were mapped in Planning, plus two maps in Benefits. Work has started in Legal Services to map 56 existing processes. This work will be followed by the preparation of 'to be' process maps, before proceeding with prototyping and embedment. These processes were mapped through workshops with staff and include swim lanes and timings. Initial work has also commenced to map payroll processes. These maps are used to re-engineer processes across the customer service, business support and technical aspects of customer journeys, saving money and improving the customer experience.
