### REASON FOR REFUSAL

- 1 The site lies within the Metropolitan Green Belt. The proposed development is inappropriate in the Green Belt and, by definition, harmful. It fails to protect the openness of the Green Belt and encroaches into the countryside to a significantly greater degree than existing structures on site. The details accompanying the application do not amount to very special circumstances sufficient to outweigh the harm to the Green Belt that would result from the development. The proposal is therefore contrary to policy GB2A and GB7A of the Adopted Local Plan and Alterations and the aims and objectives of the NPPF.
- 2 The proposed development would be detrimental to the visual amenities of the surrounding area and harmful to the character and appearance of this semi-rural location, contrary to policies DBE1, DBE2 and DBE4 of the Adopted Local Plan and Alterations and the aims and objectives of the NPPF.
- 3 The proposed sub-urban development proposed is at a scale at odds with the surrounding context and would harm the rural setting of Millers Farmhouse, a Grade II Listed Building, by diminishing its significance. Furthermore the materials palette proposed is wholly inappropriate and would detract from the appearance of Millers Farmhouse. Accordingly, the proposal is contrary to policy HC12 of the Adopted Local Plan and Alterations and the aims and objectives of the NPPF.

### WAY FORWARD

Members suggested that the applicant should consider the issue of the existing and proposed footprint, and consider if there are any very special circumstances which would overcome the matter of inappropriate development within the Green Belt.

**REASON FOR REFUSAL**

- 1 The proposed scheme is a poor design due to its flat roof which has an adverse impact on the character and appearance of the street scene in this location, contrary to policies CP2 & DBE1 of the adopted Local Plan and Alterations and the guidance in the National Planning Policy Framework.
- 2 The proposed scheme is poorly sited and will result in a cramped form of development which has an adverse impact on the character and appearance of property and the street scene in this location, contrary to policies CP2, CP7 & DBE1 of the adopted Local Plan and Alterations and the guidance in the National Planning Policy Framework.
- 3 The proposed scheme will have an adverse impact on the neighbouring property at 11 Langford's due to the siting and position of the scheme in terms of noise, disturbance and cooking odours, contrary to policies CP2 & DBE2 of the adopted Local Plan and Alterations and the guidance in the National Planning Policy Framework.

**WAY FORWARD**

Members considered that a better design, and revised siting of the building by 90 degrees to the west, or brought closer/adjacent to the main building would be a possible way forward.
