Annual 2015/16 - 75.00%
 Target: 2014/15 - 75.00%

Indicator of good performance:
 A higher percentage is good

↑ is the direction of improvement

Is it likely that the target will be met at the end of the year?

Yes

Comment on current performance (including context):

(Q2 2015/16) Major type applications represent only a small number of the overall number of planning applications received, but they are more complex and generally are reported to planning committees, so deadlines for decisions are tight. Because of this, the performance can be volatile, but with 21 out of 21 decided in time, the target has been achieved.

Uncertain

Comment on current performance (including context):

(Q2 2015/16) Of the 22 appeal decisions resulting from officer recommendations to refuse planning permission up to Q2, 7 were allowed on appeal. The allowed development types were too varied (advert, gypsy and traveller, higher density flats, vehicular crossover and household extensions) to draw conclusions at this stage from these cases as to what the outcome would be for similar future applications in the decision making process.

Corrective action proposed (if required):

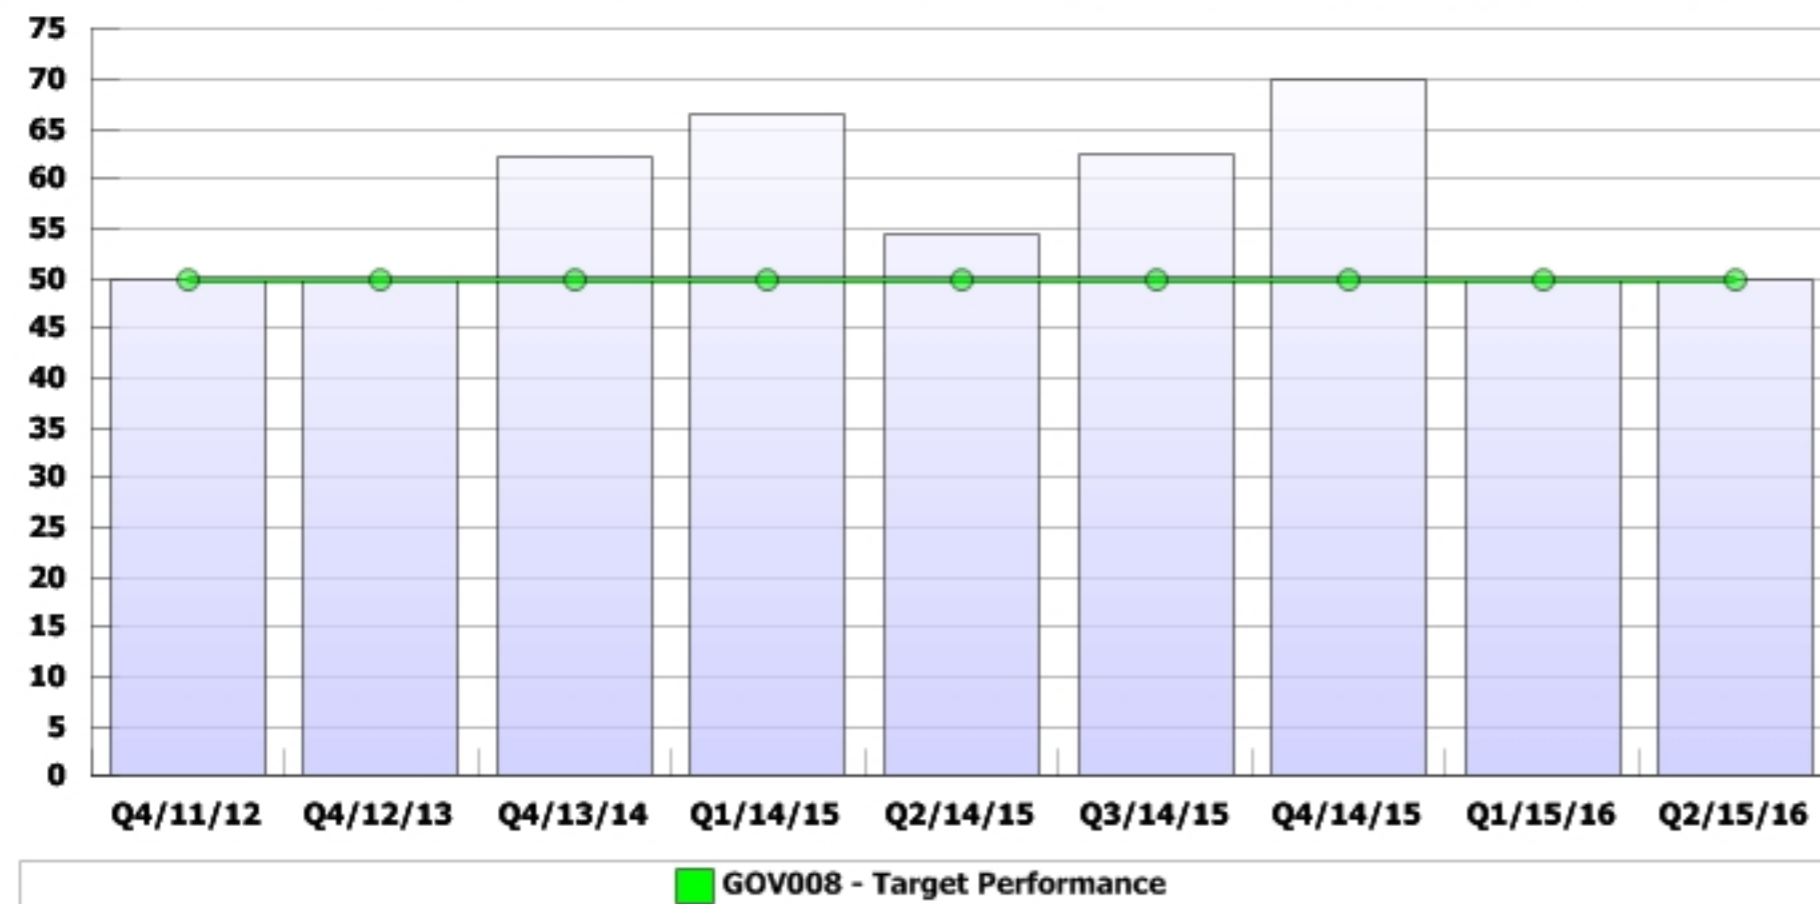

(Q2 2015/16) Governance Select Committee at their December 2015 meeting will be looking at some of these decisions to see what are the influencing factors in how these appeals have been lost and to improve appeal performance in the future.

GOV008 What percentage of planning applications, refused by Council Members against the planning officer's recommendation, were granted permission on appeal?

Additional Information: This indicator is expressed as a percentage of the no. of appeals determined and seeks to assess the levels of applications that may be refused in order to meet development control performance targets. It measures the performance of only Officer Recommendations for refusal of planning permission
