# Addendum Report to the Audit & Governance Committee

## Report Reference: AGC-009a-2015/16 Date of Meeting: 21 September 2015

Portfolio:	Finance						
Subject:	Statutory Statement of Accounts 2014/15						
Responsible Officer:		Bob Palmer	(01992 564279).				
Democratic S	Services:	Gary Woodhall	(01992 564470).				

#### **Recommendation:**

#### (1) To consider the revised valuations for the Leisure Centres, as set out below.

#### Report:

#### Valuation of Council Leisure Centres

1. Due to being unable to verify the figures provided by the valuer who originally valued the Leisure Centres as referred to in the original report, it was necessary to instruct an external valuer to carry out a valuation of the four leisure centres.

2. The Council duly appointed Kemsley LLP property consultants to carry out this work which involved a full inspection of the Centres. The valuation basis is on Depreciated Replacement Cost (DRC) and therefore their work involved assessing each centres condition, age and expected remaining life.

3. We have now received their valuation report and this suggests the value of the Centres based on DRC is rather lower than was originally included in the accounts. As expected the report confirmed that both Loughton and Ongar leisure centres were generally in a good condition and had a reasonable life expectancy whereas both Epping and Waltham Abbey were in poorer condition and were much nearer the end of their useful life. The Council has also had condition surveys completed recently on the centres which support this view.

4. On reviewing the previous full valuation of the Centres back in 2010 it appears that the useful lives applied at that time may have been rather optimistic and on the assumption that these lives have reduced by five years in arriving at the 2015 valuation it is clear that with the exception of Loughton the other three centres remaining lives were substantially overstated. This therefore means their values were also overstated and in the case of Loughton, where the original error was made, this is quite significant.

5. The value originally shown in the Balance Sheet for the four Centres as at 31 March was  $\pounds 27.162m$  the revised figures calculated are  $\pounds 12.335m$  a reduction of  $\pounds 14.827m$ . This has therefore reduced the Balance sheet total by the same amount.

6. Accounting requirements mean that some of this reduction is shown in the Comprehensive Income and Expenditure Statement (CIES) and some directly charged to the Revaluation Reserve. An amount of £12.690m has been charged to the Revaluation Reserve and this represents the reduction from the original figure included in the statements to its value recorded at 1 April 2007 when the Revaluation Reserve was created. The remaining

 $\pounds$ 2.137m has been charged to the CIES as this represents the additional reduction beyond the 2007 values.

7. This adjustment affects a number of pages which have been reproduced for the Committee.

#### **Revaluation Reserve**

The revaluation reserve contains the gains made by the Council arising from increases in the value of Property, Plant and Equipment (and Intangible Assets). The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and gains are consumed through depreciation, or
- disposed of and the gains are realised

The reserve contains only revaluation gains accumulated since 1 April 2007, the date that reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

#### **Capital Adjustment Account**

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provision. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the CIES (with reconciling postings from the Revaluation Reserve to convert fair value figures to historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 6 details the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.
