Executive Summary:

Cabinet considered early draft Budget proposals for 2022/23 at its meeting on 6th December 2021. The full report included revenue and capital proposals for both the General Fund and Housing Revenue Account as well as a schedule of suggested Fees and Charges for the forthcoming financial year. An updated Medium-Term Financial Plan (MTFP) covering the financial years 2022/23 through to 2026/27 was also included, which reflected both the impact of the draft Budget proposals as well as the latest available intelligence at the time.

In recognising the important role of scrutiny in developing a robust budget, the Cabinet also requested that the Stronger Council Select Committee considers the draft Budget proposals for 2022/23, as well as the associated documents.

The Cabinet were advised by the Section 151 Officer at the December meeting that – as required by law – a balanced revenue position (eliminating a previously identified projected deficit of £1.504 million) had provisionally been reached for 2022/23 and that the medium-term financial position was broadly unchanged compared to the position presented on 11th October 2021 (and subsequently to this Committee on 16th November 2021), with a particular challenge still anticipated in 2024/25 and 2025/26 as a consequence of the forthcoming new Waste Management Contract. Some significant uncertainties remained however, especially as the annual Settlement for 2022/23 had yet to be announced by the Government at that stage.

The provisional Local Government Finance Settlement 2022/23 was eventually released on 16th December 2021; the outcome for Epping Forest District Council was generally as expected and provided further assurance as to the underlying financial sustainability of the draft Budget proposals as currently presented. Officers will provide a verbal update on the Settlement to the Committee to provide further context and insight into the Budget proposals and the Council's medium-term financial position.

The full Budget report considered by the Cabinet on 6th December 2021 is presented in ***Attachment 1.***

In addition – in order to further assist the scrutiny process – a more detailed summary of the draft Budget proposals (at a cost centre level) has been prepared by officers and is presented in ***Attachment 2.***

Reason for Decision:

This report facilitates the scrutiny of the initial draft Budget proposals for 2022/23, which will support the Cabinet in further developing, and recommending final proposals, for adoption by full Council on 24th February 2021.

Comments and/or recommendations made at this Committee, where relevant, will be reported to Cabinet for their consideration at their meeting on 7th February 2022.

Options:

There are no matters for decision in this report. The Committee is asked to consider the and make comments and/or recommendations for consideration by Cabinet.

Resource Implications:

The resource implications in this report are overwhelmingly financial in nature and are explained in detail.

Legal and Governance Implications:

The Council has a legal duty under the Local Government Finance Act 1992 to set a balanced budget. This report presents initial draft budget proposals that reflect a balanced position for 2022/23, although they are based on a series of estimates and assumptions that still require further refinement.

Safer, Cleaner, Greener Implications:

There are no SGS implications.

Consultation Undertaken:

The updated Medium-Term Financial Plan (MTFP) 2022/23 to 2026/27 – including a projected General Fund deficit of £1.504 million for 2022/23 – was presented to the Stronger Council Select Committee on 16th November 2021; the comments from that meeting were considered by Cabinet alongside the draft Budget proposals presented at their meeting held on 6th December 2021. Comments and/or recommendations made by the Stronger Council Select Committee on this report will be taken forward for Cabinet consideration on 7th February 2022.

Background Papers:

As presented in attachments and appendices.

Risk Management

The consideration of risk forms an integral part of the development of the draft Budget proposals. In particular, the Budget (and updated MTFP) is based on a series of estimates and assumptions that are informed by a range of intelligence sources (some certain, some uncertain); that process, including any residual risk in the decision-making process, is clearly indicated where appropriate.
