

EFDC SCI consultation Q10

Name	10.Are there any other ways that you think we could receive comments on planning applications?
Martin Hall	No
Mr & Mrs Leng	via planning representatives
Cherry McRedie	I think you must take care that your questions are not worded in such a way that you receive the answer you desire not the desires of the respondent
K A Miller	suggest comments could be discussed with ward councillors before notifying EFDC. Few people know who their ward councillor is!
Mrs K G Freeman	Yes send a planning officer around to the properties people live in the areas that will have housing estates etc. built on the back of them with the plans of what is going to be built (clearly show the plan) and help them to fill in the questionnaire with what residents really want!! then take it back to EFDC planning etc for the RECORD!! what people really want with no TRICKS!!!. Make it very clear what local people really want.
Mr William Freeman	Yes send a planning officer around to the people's homes that will have housing estates etc. built at the back of them with the plans of what is going to be built and clearly show it to them with a return questionnaire for residents to fill in and help them to do it too!! then the planning officer can take it back to EFDC planning etc for the record of what people really want with no tricks to stop people saying clearly what they want.!!!
Mrs Valerie Mavin	Yes send a planning officer around to the peoples homes that will have housing estates etc. built at the back of them with the plans of what is going to be built and clearly show it to them with a return questionnaire for residents to fill in and help them to do it ! then the planning officer can take it back to EFDC planning etc for the record of what people clearly want with no tricks!! to stop people saying clearly what they really want.!!!
Barbara Seal	Ensure that details about plans are given by the council in time for people to develop their own ideas and opinions
Leslie Richard Holliwell	When proposed developments are to take place within say 500m of a residence, the occupants should receive individual notification through the post. Putting things on the internet disenfranchises a very substantial part of the elderly population , effectively excluding most from the process altogether.
Mr & Mrs Walker	post to those affected by Planning

EFDC SCI consultation Q10

Chigwell Residents Action Group	This should not form part of the same statement as the Local Plan elements. Easy access to online responses
Lesley Wagland Member of Chigwell Parish Council and of Chigwell Residents Association	This should not form part of the same statement as the Local Plan elements. More meetings with local communities would help. A detachable section to letters to nearby owners would produce more engagement.
Edie Bow (Chairman) Chigwell Residents Association	This should not form part of the same statement as the Local Plan elements
Mrs Val Evans Epping Upland Parish Council	none
Mrs Lisa Berry & Mrs A McCarthy	Make residents aware comments are needed. Seeing as we do not receive a free local paper - clear, precise leafleting even through schools and local shops.
Chelmsford City Council	No, the Draft SCI offers a range of ways for consultees to make comments.
Mr S A McGuinness	No
Paul Dunn	No, you have it covered, just ensure you listen to the local communities!
