

Report Item No:1

APPLICATION No:	EPF/2601/18
SITE ADDRESS:	199 Nine Ashes Road Nine Ashes High Ongar Essex CM4 0JY
PARISH:	High Ongar
WARD:	High Ongar, Willingale and the Rodings
DESCRIPTION OF PROPOSAL:	Demolition of an existing structure and replacement with 2 x detached dwellings with associated new vehicle crossover, garages, landscaping and other associated works.
DECISION:	Grant Permission (Subject to Legal Agreement)

Click on the link below to view related plans and documents for this case:

http://planpub.eppingforestdc.gov.uk/NIM.websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=615196

CONDITIONS

- 1 The development hereby permitted will be completed strictly in accordance with the approved drawings nos: 1755. 1C, 1755. 2F, 1755. 3B, 1733. 4D
- 2 Prior to first occupation of the development hereby approved, 1 Electric Vehicle Charging Point for each dwelling that has a garage or allocated parking space and 1 Electric Vehicle Charging Point for every 10 properties that share unallocated parking shall be installed and retained thereafter for use by the occupants of the site.
- 3 Prior to first occupation of the development, a scheme to enhance the ecological value of the site shall be submitted to and agreed in writing by the Local Planning Authority. The ecological value shall be quantified using the Biodiversity Impact Assessment Calculator (BIAC) where appropriate. The scheme shall be implemented in full prior to the occupation of the development hereby approved.
- 4 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 5 Prior to first occupation of the development, measures shall be incorporated within the development to ensure a water efficiency standard of 110 litres (or less) per person per day.
- 6 Wheel washing or other cleaning facilities for vehicles leaving the site during construction works shall be installed and utilised to clean vehicles immediately before leaving the site. Any mud or other material deposited on nearby roads as a

result of the development shall be removed.

- 7 The parking area shown on the approved plan shall be provided prior to the first occupation of the development and shall be retained free of obstruction for the parking of residents (staff) and visitor's vehicles.
- 8 No development shall commence until an assessment of the risks posed by any contamination, carried out in accordance with British Standard BS 10175: Investigation of potentially contaminated sites - Code of Practice and the Environment Agency's Model Procedures for the Management of Land Contamination (CLR 11) (or equivalent British Standard and Model Procedures if replaced), shall have been submitted to and approved in writing by the local planning authority. If any contamination is found, a report specifying the measures to be taken, including the timescale, to remediate the site to render it suitable for the approved development shall be submitted to and approved in writing by the local planning authority. The site shall be remediated in accordance with the approved measures and timescale and a verification report shall be submitted to and approved in writing by the local planning authority. If, during the course of development, any contamination is found which has not been previously identified, work shall be suspended and additional measures for its remediation shall be submitted to and approved in writing by the local planning authority. The remediation of the site shall incorporate the approved additional measures and a verification report for all the remediation works shall be submitted to the local planning authority within 21 days of the report being completed and approved in writing by the local planning authority.
- 9 Following completion of the measures identified in the approved remediation scheme, and prior to the first use or occupation of the development, a verification report that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.
- 10 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the Phase 2 report, work shall be suspended and additional measures for its remediation shall be submitted to and approved in writing by the local planning authority. The remediation of the site shall incorporate the approved additional measures and a verification report for all the remediation works shall be submitted to the local planning authority within 21 days of the report being completed and approved in writing by the local planning authority.
- 11 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
- 12 If any tree, shrub or hedge shown to be retained in the submitted Arboricultural reports is removed, uprooted or destroyed, dies, or becomes severely damaged or diseased during development activities or within 3 years of the completion of the development, another tree, shrub or hedge of the same size and species shall be planted within 3 months at the same place, unless the Local Planning Authority

gives its written consent to any variation. If within a period of five years from the date of planting any replacement tree, shrub or hedge is removed, uprooted or destroyed, or dies or becomes seriously damaged or defective another tree, shrub or hedge of the same species and size as that originally planted shall, within 3 months, be planted at the same place.

- 13 Prior to any above ground works, full details of both hard and soft landscape works (including tree planting) and implementation programme (linked to the development schedule) shall be submitted to and approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained: proposed finished levels or contours; means of enclosure; car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.
- 14 No development, including works of demolition or site clearance, shall take place until a Tree Protection Plan, Arboricultural Method Statement and site monitoring schedule in accordance with BS:5837:2012 (Trees in relation to design, demolition and construction - Recommendations) has been submitted to the Local Planning Authority and approved in writing. The development shall be carried out only in accordance with the approved documents unless the Local Planning Authority gives its written consent to any variation.
- 15 Prior to preliminary ground works taking place, details of surface water disposal shall be submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with such agreed details.
- 16 No preliminary ground works shall take place until a flood risk assessment and management and maintenance plan shall be submitted to and approved by the Local Planning Authority prior to commencement of development. The assessment shall include calculations of increased run-off and associated volume of storm detention using WinDes or other similar best practice tools. The approved measures shall be carried out prior to the substantial completion of the development and shall be adequately maintained in accordance with the management and maintenance plan.
- 17 No removal of hedgerows, trees or shrubs or works to or demolition of buildings or structures that may be used by breeding birds shall take place between 1st March and 31st August inclusive, unless a competent ecologist has undertaken a careful, detailed check of vegetation for active birds' nests immediately before the vegetation is cleared and provided written confirmation that no birds will be harmed and/or that there are appropriate measures in place to protect nesting bird interest on site. Any such written confirmation should be submitted to the local planning authority.
- 18 During and post-construction a "lighting design strategy for bats" shall be submitted to and approved in writing by the local planning authority. The strategy shall:
Show how and where external lighting will be installed (through the provision of

appropriate lighting contour plans and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent bats using their territory or having access to their breeding sites and resting places. All external lighting shall be installed in accordance with the specifications and locations set out in the strategy, and these shall be maintained thereafter in accordance with the strategy.

- 19 A Construction Method Statement is to be submitted to EFDC outlining precautionary measures in respect of reptiles, amphibians and mammals. This will include the method of pond drainage

And subject to the applicant first entering into a legal agreement under Section 106 to provide an appropriate contribution towards mitigation of any possible adverse impact on the Epping Forest Special Area of Conservation with regard to air quality

Report Item No: 2

APPLICATION No:	EPF/2708/18
SITE ADDRESS:	High House Farm Stapleford Road Stapleford Abbots Essex RM4 1EJ
PARISH:	Stapleford Abbots
WARD:	Passingford
DESCRIPTION OF PROPOSAL:	Construction of 27 new dwellings, including 7 affordable dwellings, with associated infrastructure, parking, public open space and landscaping.
DECISION:	Refused

Click on the link below to view related plans and documents for this case:

http://planpub.eppingforestdc.gov.uk/NIM.websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=615713

REFUSED

1. By concentrating the affordable housing to a discrete part of the site, thereby separating it from the market housing, the proposed development would fail to provide for a mixed, balanced and appropriately integrated residential development. As such, the proposal would undermine the achievement of mixed and balanced communities within the District contrary to Policies H 1 (Housing Mix and Accommodation Types) and H 2 (Affordable Housing) of the Local Plan Submission Version 2017
2. The proposed development, by reason of its overall built footprint, scale, bulk and massing would cause substantial harm to the openness, character and appearance of the Green Belt in this location. As such, the proposal constitutes inappropriate development in the Green Belt within the context of the NPPF (2019), which should not be approved except in very special circumstances, Notwithstanding the site's planning history, the potential harm by reason of inappropriateness, the substantial harm to the openness, character and appearance of the Green Belt in this location, and the other identified harm resulting from the proposal is not clearly outweighed by other considerations. Accordingly, as very special circumstances have not been demonstrated, the proposed development would be contrary to national Green Belt policy in the NPPF (2019), Policies GB2A (Development in the Green Belt) and GB7A (Conspicuous Development) of the adopted Local Plan 1998 and Alterations 2006, and Policy DM 4 (Green Belt) of the Local Plan Submission Version 2017.

3. The application does not provide sufficient information to satisfy the Council, as competent authority, that the proposed development will not adversely affect the integrity of the Epping Forest Special Area for Conservation and there are no alternative solutions or imperative reasons of overriding public interest why the proposed development should be permitted. In the absence of such evidence, and of a completed Section 106 planning obligation to mitigate against the adverse impact that it will have on the Epping Forest Special Area for Conservation in terms of air pollution, the proposed development is contrary to policies CP1 and CP6 of the Epping Forest Local Plan (1998) and Alterations (2006), policies DM 2 and DM 22 of the Epping Forest District Local Plan Submission Version 2017, the NPPF, and the requirements of the Habitats Regulations 2017.

Report Item No:3

APPLICATION No:	EPF/0502/19
SITE ADDRESS:	57 Theydon Park Road Theydon Bois Epping Essex CM16 7LR
PARISH:	Theydon Bois
WARD:	Theydon Bois
DESCRIPTION OF PROPOSAL:	Part two storey, part single storey rear extension, single storey front extension, garage conversion, internal alterations and front door canopy. Drive to be widened and property to be re-cladded. Raised patio area at rear.
DECISION:	Grant Permission (With Conditions)

Click on the link below to view related plans and documents for this case:

http://planpub.eppingforestdc.gov.uk/NIM.websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=620953

CONDITIONS

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 The development hereby permitted will be completed strictly in accordance with the approved drawings nos: 2017 - 01 and 02 Rev G
- 3 Materials to be used for the external finishes of the extensions hereby approved shall match those to be used in the refurbishment of the existing building and as indicated on the approved drawing, unless otherwise agreed in writing by the Local Planning Authority.
- 4 The window openings in the flank elevations shall be entirely fitted with obscured glass with a minimum Level 3 obscurity and have fixed frames to a height of 1.7 metres above the floor of the room in which the window is installed and shall be permanently retained in that condition. No other windows shall thereafter be installed in the flank elevations of the building as extended without prior consent from the Local Planning Authority.
- 5 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, (or any other order revoking, further amending or re-enacting that Order) no development generally permitted by virtue of Class B of Part 1 of Schedule 2 to the Order, shall be undertaken without the prior written permission of the Local Planning Authority.

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 The development hereby permitted will be completed strictly in accordance with the approved drawings no's:

CHSs_EX_100_A, CHSs_EX_200_A, CHSs_PL_100_C, CHSs_PL_200_C, CHSs_PL_120_C, CHSs_PL_220_C, CHSs_PL_320_C, CHSs_PL_321_C, CHSs_PL_322_C, RCT Construction Limited Transport Statement ref A110371-1 December 2018, Planning Statement, Noise and Vibration Impact Assessment Technical Report 31503 R2 by Sound Solution Consultants, Flood Risk Assessment by Tree Counties Flood Risk Assessment, Energy and Sustainability Statement by Integration dated 12 December 2018, Tim Moya Associated Ecological Report Extended Phase 1 Habitat Survey Bat Scoping Assessment, Great Crested Newt HSI Assessment Nov 2017, Report on a Phase 1 Desk Study by Ground Engineering ref C14638 Dec 2018, Tim Moya Associates Arboricultural Impact Assessment ref 180920-PD-10 Dec 2018.
- 3 No construction works above ground level shall have taken place until documentary and photographic details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority, in writing, prior to the commencement of the development. The development shall be implemented in accordance with such approved details.
- 4 No preliminary ground works shall take place until a flood risk assessment and management and maintenance plan shall be submitted to and approved by the Local Planning Authority prior to commencement of development. The assessment shall include calculations of increased run-off and associated volume of storm

detention using WinDes or other similar best practice tool. The approved measures shall be carried out prior to the substantial completion of the development and shall be adequately maintained in accordance with the management and maintenance plan.

- 5 No development shall commence until an assessment of the risks posed by any contamination, carried out in accordance with British Standard BS 10175: Investigation of potentially contaminated sites - Code of Practice and the Environment Agency's Model Procedures for the Management of Land Contamination (CLR 11) (or equivalent British Standard and Model Procedures if replaced), shall have been submitted to and approved in writing by the local planning authority. If any contamination is found, a report specifying the measures to be taken, including the timescale, to remediate the site to render it suitable for the approved development shall be submitted to and approved in writing by the local planning authority. The site shall be remediated in accordance with the approved measures and timescale and a verification report shall be submitted to and approved in writing by the local planning authority. If, during the course of development, any contamination is found which has not been previously identified, work shall be suspended and additional measures for its remediation shall be submitted to and approved in writing by the local planning authority. The remediation of the site shall incorporate the approved additional measures and a verification report for all the remediation works shall be submitted to the local planning authority within 21 days of the report being completed and approved in writing by the local planning authority.
- 6 Following completion of the measures identified in the approved remediation scheme, and prior to the first use or occupation of the development, a verification report that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.
- 7 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the Phase 2 report, work shall be suspended and additional measures for its remediation shall be submitted to and approved in writing by the local planning authority. The remediation of the site shall incorporate the approved additional measures and a verification report for all the remediation works shall be submitted to the local planning authority within 21 days of the report being completed and approved in writing by the local planning authority.
- 8 Prior to any above ground works, full details of both hard and soft landscape works (including revised Bins storage location, means of enclosure details, and details and tree planting) and

implementation programme (linked to the development schedule) shall be submitted to and approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained (notwithstanding approved plans): Revised location of Bin storage (sited away from boundary with No: 13 Charles Street), proposed finished levels or contours; means of enclosure (including revised details of wall to the rear of Charles Street which shall be constructed of a Brick material); car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.

- 9 Prior to preliminary ground works taking place, details of surface water disposal shall be submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with such agreed details.
- 10 Prior to first occupation of the development, measures shall be incorporated within the development to ensure a water efficiency standard of 110 litres (or less) per person per day.
- 11 The development permitted by this planning permission shall be carried out in accordance with the recommendations made in the submitted Noise and Vibration Impact Assessment Technical Report reference 31503 R2 by Sound Solution Consultants.
- 12 The development permitted by this planning permission shall be constructed in accordance with the details listed in the Energy and Sustainability Statement by Integration dated 12 December 2018.
- 13 The development permitted by this planning permission shall be carried out in accordance Recommendations made in Tim Moya Associated Ecological Report Extended Phase 1 Habitat Survey Bat Scoping Assessment, Great Crested Newt HSI Assessment Nov 2017,
- 14 Access to the flat roof over the extension hereby approved shall be for maintenance or emergency purposes only and the flat roof shall

not be used as a seating area, roof garden, terrace, patio or similar amenity area.

- 15 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, (or any other order revoking, further amending or re-enacting that Order) no development generally permitted by virtue of Class B of Part 1 of Schedule 2 to the Order, shall be undertaken without the prior written permission of the Local Planning Authority.
- 16 Prior to first occupation of the development, the Developer shall be responsible for the provision and implementation, per dwelling, of a residential Travel Information Pack for sustainable transport, approved by Essex County Council.
- 17 Prior to the first occupation of the development the access arrangements, vehicle parking and turning areas as indicated on the approved plans shall be provided, hard surfaced, sealed and marked out. The access, parking and turning areas shall be retained in perpetuity for their intended purpose.
- 18 Prior to first occupation of the development hereby approved, 1 Electric Vehicle Charging Point for each dwelling that has a garage or allocated parking space shall be installed and retained thereafter for use by the occupants of the site.
- 19 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
- 20 Wheel washing or other cleaning facilities for vehicles leaving the site during construction works shall be installed and utilised to clean vehicles immediately before leaving the site. Any mud or other material deposited on nearby roads as a result of the development shall be removed.
- 21 No new windows shall be inserted into the southern elevation walls of the dwellings hereby approved without the prior written permission of the Local Planning Authority.

And subject to the applicant first entering into a legal agreement under Section 106 to provide an appropriate contribution towards mitigation of any possible adverse impact on the Epping Forest Special area of Conservation with regard to recreational pressure and air quality.
